

Step Medical Solutions

Introduction

Step Medical Solutions has been **established in Iraq 2014**, based in Baghdad, Iraq. We take great pride in providing our community with high quality, patient-centric care, and health education.

Vision To be number one healthcare technology and service provider in Iraq.

Mission Providing the Iraqi people with the newest possible healthcare technology and services, being the pioneer and contribute to boost up the Iraqi medical status.

European Medical Center

The European Medical Center (the European Center for Orthopedic, Trauma and Spine previously) has performed since 2016 and until today **more than (2,000) complex operations**.

The European Medical Center attracts specialists and surgeons from **Germany, Austria, Russia, Georgia, Turkey, India, Jordan, Iran, and Lebanon** in the form of continuous periodic visits.

The European Medical Center has recently expanded to attract doctors and surgeons in the fields of **open-heart surgery for children and adults, eye surgery, therapeutic neuro- and peripheral vascular interventions**. We had performed more than **(1,000) complex operations** in these specialties.

Medical Implants & Consumables

With the partnership with Al-Shafaq scientific bureau, our professional team is to provide our physicians and hospitals in Iraq with the high-quality standards medical implants and consumables to help them throughout the patients' health journeys.

Future Orbit Technology Solutions - Hospital Information System

As a partners with the most advances HIS providers, we both guarantee rapid, reliable, and robust information technology solutions for Iraqi Hospitals by offering a comprehensive, integrated hospital management software.
